Subject: PacifiCorp rate increase

To Whom It May Concern:

I hope you will refuse the rate increase which PacifiCorp has requested. PacifiCorp should be able to justify any rate increase by demonstrating their expenses have risen by the amount requested. Negotiations for the increase should be made public.

With a severe economic recession occuring, utility users cannot afford to subsidize unrealistic profits or huge salaries for PacifiCorp. It is the job of the Public Seervice Commission to protect the public interest. A large rate increase in utility rates will negatively affect Utah businesses as well as home owners.

Sincerely,

Ann Johnson
