PLEASE PROVIDE A SHORT NARRATIVE OUTLINING PROPOSED ACTION TO BE TAKEN OR WORK ALREADY PERFORMED:

I've been in contact with several of the Cathodic Protection contractors and although a couple haven't called back, Brent from Whittaker Construction Company is in the process of researching the proper course of action for my situation. We will either be placing cathodic protection on the lines, or replacing the lines that are still necessary for the property, untill the tear down of all the buildings occurs.
