Re: Amendments to R746-100-3

Mr. Larsen,

We are writing in response to your letter of October 1 related to our proposed amendments to R746-100-3. We appreciate your recognition that those amendments, made effective last month, were intended to create a more streamlined and efficient filing process.

You made some additional suggestions related to our filing requirements. We want to express our commitment to appropriate regulations, which includes a pledge not to impose unnecessary or bureaucratic filing conditions. Additionally, we take seriously our obligation to give each filing its due review and evaluation. Balancing both goals with existing funding and staffing levels is a crucial objective for us.

We have initiated two processes we plan to complete during calendar year 2016 to improve the usefulness of our internal and external electronic databases. We hope those improvements will allow us to further pursue our shared goals for an efficient filing process. We intend to keep open the lines of communication with all interested parties as we pursue these objectives.

Sincerely,

/s/ Thad LeVar, Chair

/s/ David R. Clark, Commissioner

/s/ Jordan A. White, Commissioner
