RE: Rule 746-200-7 Comments

Rocky Mountain Power thanks the Commission for the opportunity to provide comments on the proposed amendments to Rule 746-200-7. The Company appreciates the efforts of the Public Service Commission of Utah to amend the rules regarding restrictions on termination of service where life support equipment is used.

Rocky Mountain Power believes the amended rules establishes a reasonable timeframe to provide notice to our life support customers but still provides flexibility for the Company to work closely with these customers when the situation is warranted, and is in support of those amendments.

Sincerely,

Jeffrey K. Larsen
Vice President, Regulation
