

On the July 29, 2009, MSP phone call the issue of protection for confidential documents distributed by the Company regarding MSP analyses was raised.

The Utah Public Service Commission recommends the Company and Utah parties reference and rely on the protective order issued May 14, 2002, in Docket No. 02-035-04, which was the case in which the stipulation on the revised protocol was approved in Utah.

This docket is available on our website:

<http://www.psc.utah.gov/utilities/electric/elecindx/0203504indx.html>

Parties can review the protective order and see whether they have already signed an Appendix A, if required. New Utah participants needing to sign and file an Appendix A in Docket No. 02-035-04 may do so (the Appendix A form is attached to the May 14, 2002, Protective Order).

Please let me know if there are any questions or comments regarding this solution.

Sincerely,

Becky Wilson, Executive Staff Director
Utah Public Service Commission
160 East 300 South
Salt Lake City, Utah 84111

By no later than Tuesday, August 18, 2009, please reply to this email and confirm whether: 1) you would like to continue receiving non-confidential MSP Standing Committee notices and materials, and 2) you also wish to receive the Company's quantitative assessment of the Revised Protocol.

We need to update the email list and also identify those who wish to work with the Company to assure the confidentiality of information that will be contained in the Quantitative Assessment of Revised Protocol. The first draft is due out on August 17, 2008.

If you wish to receive the Quantitative Assessment of the Revised Protocol, please respond as soon as possible so that the Company can contact you to make satisfactory confidentiality arrangements.

If you wish only to receive other notices and materials, please let me know in the next week so that I can get you other timely information. If you are unable to respond in the next week, I will add your name back to the mailing list whenever I receive your reply.

Jim Curtis
