Re: Case No. 03-035-14 – Quarterly Compliance Filing – Avoided Cost Input Changes Utah Public Service Commission (the Commission)

Commission Orders dated October 31, 2005 and February 2, 2006 in Case No. 03-035-14 state that the Company is required to keep a record of any changes, including data inputs, made to the Proxy and GRID models used in calculating avoided costs. The Orders further require the Company to notify the Commission and Division of Public Utilities of updates made to the models used in the approved Proxy and Partial Displacement Differential Revenue Requirement (PDDRR) avoided cost methodologies.

This filing reports changes since the Company's last compliance filing dated April 3, 2009.

PacifiCorp (dba Rocky Mountain Power) hereby respectfully submits an original of this compliance filing to address this requirement. An electronic copy of this filing will be provided to jwatts@utah.gov. Additional detail is provided below:

1. GRID Model Data Updated

Avoided cost modeling and assumptions are unchanged from the March 31, 2009 filing.

On May 28, 2009 the Company filed its 2008 Integrated Resource Plan ("2008 IRP"). On June 30, 2009 the Company completed an update to its Official Forward Price Curve ("0609 OFPC"). Due to the recent release of these two critical inputs, the Company is in the process of updating avoided cost GRID modeling but has not completed modeling updates.

The Company has received a request from Kennecott for a 20-year study which will be prepared utilizing the 2008 IRP and 0609 OFPC. This study is expected to be completed in mid July. In mid June, the Company provided to Kennecott avoided cost prices for calendar year 2010 based upon the Company's March 31, 2009 OFPC, incorporating the 2008 IRP information applicable to the study period. The Company will update the Kennecott avoided costs for 2010 together with the rest of the 20-year period requested by Kennecott.

The Company expects to file a supplemental to this compliance filing in late July.
