#### Comments:

Please find attached a copy of your 1/29/03 Joint Pole Notice for pole number 11204001.0 190002. Is this application for a new attachment and a pole mount cabinet (thus 2 attachments) or is this application just for the cabinet?

Also, please advise me of the type of cabinet to be installed, the dimensions of the cabinet and the installation method.

If you require further information or have any questions, please call me directly at (503) 813-7155. Thank you.

### Comments:

Please find attached a copy of your 12/9/02 Joint Pole Notice for overlash attachments in the North Ogden, UT area. The overlash attachment request is approved pending the following:

- 1. Pole numbers 298403, 299408, 298304, 298300, and 298402 do not reflect an initial attachment in our database and the field advises me that you have attachment to these poles. Do you have copies of the applications AT&T submitted for the initial attachments to these poles? These poles will be billed unauthorized attachment fines unless you can provide me with these applications. If you do not have record of these requests, please submit attachment requests to permit the initial attachment as soon as possible.
- Pole numbers 280303, 299310, 299309 and 299308 do not reflect an initial attachment in our database and the field advises me that you are not yet attached to these poles. Please provide me with a pole attachment request to establish your initial attachment as soon as possible to avoid unauthorized attachment fines on these poles.

If you require further information or have any questions, please call me directly at (503) 813-7155. Thank you.

### Comments:

Please find attached copies of your 11/21/02 (002197133) and 3/3/03 Joint Pole Notices. In my initial review, these seem to be identical except for the first two "No Pole #" poles on the 3/3/03 notice. Please advise me how to proceed.

If you require further information or have any questions, please call me directly at (503) 813-7155. Thank you.

### Comments:

Please find attached a copy of the above-referenced Notice. All poles are approved for overlash attachment except for the pole listed as "No Pole #". The field advises me that there is not a pole between 148011 and 148012. Please advise me if you have further information regarding the location of this pole and I will investigate it. At this point, this "No Pole #" is not approved for overlash attachment.

If you require further information or have any questions, please call me directly at (503) 813-7155. Thank you.

#### Comments:

Please find attached a copy of the above-referenced Notice for attaching risers to the pole. I am working with the field on this request. Upon taking a closer look at your map I would like to confirm that the request is for pole 119806 or for the pole with no number. Please advise.

If you require further information or have any questions, please call me directly at (503) 813-7155. Thank you.

### Comments:

In follow-up to my March 13, 2003 fax (copy attached), please confirm, using the attached map, that we are looking at the same pole. Your map is a bit hard to read and I want to be absolutely sure so I can have our map updated appropriately and I approve the correct pole.

If you require further information or have any questions, please call me directly at (503) 813-7155. Thank you for your patience.
