#### Out 59 Hours

-If they had put the power lines underground and did the tree trimming then we wouldn't have this problem.

-Their people don't care and are just sitting there in their trucks doing nothing.

-She was told by a crewman, that their neighborhood power grid system, which has 102 people on the line, goes down 1 or 2 times a year. In snow, rain, and hail, storms. The crew man called their power system the "Mickey Mouse system", this means that it isn't a good system and does not have a good design.

-Does NOT want the Force Majeure

-Feels like they need to pay for not only the inconvenience but the food that people lost, the customers should be compensated (those that ask).

-Mother is 86 and she was out from Friday morning at 4am until later in the day on Saturday. -

Mother-in-Law is 85 and she was out from Friday morning until Monday morning.
