

Division Comments on Data Requests

Artie Powell

Division of Public Utilities

Technical Consultant and Acting Manager, Energy Section

*Tuesday, October 25, 2005*

The Division has reviewed the data request submitted by Petitioners under Docket No. 04-035-70 and believes that a response will take a considerable amount of time and resources. Many of the questions request information going back to 1988 and will require the Division to search archives for the requested material. Answering the questions could be particularly time consuming since many of the questions address areas that could more readily be addressed by Division employees who no longer work for the Division. I estimate that a complete response to the data request would take two Division employees (Mr. Dennis Miller and Ms. Valarie Stewart) two weeks working near full time in consultation with several other Division employees (Mr. William A. Powell; Ms. Connie White; Ms. Mary Cleveland; and Mr. George Compton) to complete the data response.
