Re: Solar Photovoltaic Incentive Program (Schedule 107) Revised Annual Report for
Program Year 2012

On March 29, 2013, Rocky Mountain Power (Company) filed its Solar Photovoltaic Incentive Program (Schedule 107) Annual Report for Program Year 2012 (2012 Report) with the Public Service Commission (Commission). On April 22, 2013, the Office of Consumer Services (Office) identified several small items in the report that either needed correction or further explanation. On April 29, 2013, the Commission requested that the Company file an errata regarding the issues identified by the Office.

Pursuant to the Commission's direction, Rocky Mountain Power hereby submits for filing an original and ten (10) copies of the 2012 annual report with the following revisions recommended by the Office:

- A date Reference on Page 4 of the Report was corrected to clarify that the subsequent data reflected 2012 program information rather than 2011 information.
- Project specific information included in Appendix 1 was confirmed. This led to the removal a project related to the 2011 Program Year from the Installed Residential table. This change corrected the totals for the columns referenced by the Office.

It is respectfully requested that all formal correspondence and staff requests regarding this matter be addressed to:

By E-mail (preferred): datarequest@pacificorp.com
dave.taylor@pacificorp.com

By regular mail: Data Request Response Center
