Subject: Docket No. 08-035-78

Ms. Livingston:

Please distribute this to parties in Docket No. 08-035-78.

In the January 12, 2009 hearing on Net Metering, Docket No. 08-035-78, Commissioner Allen asked Committee witness Cheryl Murray if she knew if the Committee had originally proposed the cap on net metering. She responded that she did not know but would check.

Following is the response to that question. No one currently at the Committee has any recollection of the origin of the cap on net metering.

Cheryl Murray
