RE: Tariff 09-03 Docket No. 09-035-T03

Rocky Mountain Power is proposing changes to its Schedule 135 to make it consistent with requirements set forth by the Commission Order issued on February 12, 2009 under Docket No. 08-035-78

Dear Ms. Son:

The Commission has reviewed the proposed tariff revisions transmitted with your Advice Letter No. 09-03 dated June 5, 2009.

The Division recommends the Commission accept the revisions in the above named tariff. However, the Division notes the February 12, 2009, Report and Order ("Report and Order") in Docket 08-035-78, "In the Matter of the Consideration of Changes to Rocky Mountain Power's Schedule No. 135 - Net Metering Service," also directed the Company to update the avoided cost pricing in Schedule No. 37, "Avoided Cost Purchases from Qualifying Facilities" ("Schedule No. 37"), annually, concurrent with the approval and establishment of the FERC Form No. 1 method rates. The Division indicates it is not aware that the Company has updated Schedule No. 37 rates. Therefore, the Division recommends the Commission direct the Company to do so within fourteen calendar days of a Commission order in this docket.

It was the intent of the Commission's Report and Order to ensure not only that all of the pricing options available to non-residential net metering customers are updated annually at the same time, but also that Schedule No. 37 pricing would be updated so that large non-residential customers who may be considering net metering in the near future would have the necessary information to make an informed decision regarding whether or not to pursue net metering. The pricing provided in Schedule No. 37 is a necessary part of that information.

Now therefore, the revisions, with an effective date of July 1, 2009, have hereby been approved by the Commission. In accordance with our February 12, 2009, Report and Order we fully expect the Company to provide an updated Schedule No. 37 by July 1, 2009

Sincerely,

// Julie Orchard  
Commission Secretary
