>>> _____ 7/23/2008 6:15 PM >>>
 Mr. Ted Boyer, Chairman:

2008 JUL 25 A 8:32

154946

I respectfully request that the above policy not be approved until after all interested parties and stakeholders have had time and opportunity to evaluate the proposed tariff changes and have equal opportunity to make public comment. To process and approve such an important issue without informing those who are actively engaged and directly affected by it is shocking. Furthermore, Utha needs to be in the forefront of the nation in encouraging the development of alternative power since we have almost all the necessary resources for the major alternative energy sources, solar, wind, geothermal and hydro. A policy that will encourage development will have a great positive affect on the Utah economy and give Utah great standing in not just the nation but the world.

Sincerely,
 William P. Mammen, AIA
