Attached is the most recent version of the scheduling order that Ms. Hogle and I have discussed and agree should govern this docket. The one Ms. Hogle submitted earlier this morning contained some typographical and spelling errors that are corrected in the one attached to this e-mail. I will also deliver a paper copy. With one exception, no interested party has commented upon this order. Mr. Evans requested that the protective order for three other dockets be amended so as to permit mutual use of discovery in all four dockets. This request was discussed at the scheduling conference. Ms. Hogle and I agree and have informed Mr. Evans that his request should be separately addressed. Thank you for your consideration.
