Subject: Application of Rocky Mountain Power for Authority To Increase its Retail Electric Utility Service Rates in Utah and for Approval of Its Proposed Electric Service Schedules and Electric Service Regulations. Docket 10-035-124

Date: January 26, 2011

Rocky Mountain Power (Company) has requested that the Utah Public Service Commission (Commission) approve its application for an increase in its retail electric utility service rates in Utah. The Company filed for approval on January 24, 2011. The Company filed its Notice of Intent to File on December 1, 2010.

The Division requests that the Commission set a Scheduling Conference at the earliest opportunity. The Division will participate according to the Scheduling Order.

A cursory review of the filing revealed proposed changes to the Company's pole attachment rate. Therefore, the Division requests that the Scheduling Conference notice include a reference to this proposed change and, in addition to the regular service list, that the notice be sent to a general telecom service list.
