

Utah Public Service Commission;

I phoned and got this information: That Dickey 711 contains Power - has not as yet asked for the \$233.4 million general rate hike which would increase the typical household power bill by about 10% per month. This was on Saturday Feb. 5. 2011 <sup>paper</sup> news.

She the Elderly people are having problems being able to pay our bills now - How can we pay more? We are on fixed income and the increase is in everything it is frightening. So we are asking you not to steal on a slow an increase.

Sincerely  
Frieda DeWaar
