

EMF

Rocky Mountain Power contracted with EMF expert Dr. William Bailey, Exponent, to provide independent expert analysis on the EMF issue raised as part of the Tooele County CUP. Attached is Dr. Bailey's evaluation of EMF generally, and his observations and comments on the work undertaken by Dr. David Carpenter

We also include a commentary on electric power lines and the effect they have on other electric devices such as pace makers.

On the CD version of this submission we have included a soft copy of the National Institute of Environmental Health Science's EMF Rapid booklet, June 2002, with questions and answers about electric and magnetic fields associated with the use of electric power lines
