RE: In the Matter of the Rocky Mountain Power Proposed Standardized Interconnection and Net Metering Service Agreements and Net Metering Facilities, Docket No. 10-035-44; In the Matter of the Rocky Mountain Power Proposed Standardized Non-Net Metering Agreements, Docket No. 10-035-45.

RECOMMENDATION

The Utah Division of Public Utilities (Division) has reviewed Rocky Mountain Power's (RMP) proposed standardized interconnection service agreements in the two dockets referenced above.

The Division has found the proposed electrical interconnection forms to be in general compliance with the Commission's August 31, 2010 Order and R746-312. The Division has identified a limited number of specific issues that it wishes to follow up on and will submit its final report to the Commission by December 6.
