Re: Docket No. 10-035-T12, Advice No. 10-11 – Compliance Filing, H.B. 145
Schedule 135, Net Metering Service

On November 30, 2010, Rocky Mountain Power filed proposed changes to Schedule 135, Net Metering Service. These changes allow for alternative ownership of the generation facilities for certain eligible entities. On December 23, 2011, the Division of Public Utilities filed comments with the Commission recommending approval of the proposed changes with minor modifications that make the language more clear. Rocky Mountain Power agrees with the modifications proposed by the Division and have incorporated them into this revised filing.

Enclosed for filing are an original and two copies of the proposed changes to tariff page one associated with Tariff P.S.C.U. No. 47 Utah Schedule 135. The Company will also provide an electronic version of this filing to psc@utah.gov.

Fourth Revision of Sheet No. 135-1 Schedule 135 Net Metering Service
