ZACKS COMMENTARY FOR ALE
 Zacks Equity Research: Report for ALE
 May 02, 2012

THE END OF THE "MADE-IN-CHINA" ERA

The 21st century industrial revolution has already begun. All because of an incredible invention that's made in America.

Business Insider calls it "the next trillion dollar industry." *The Economist* compares its impact to the steam engine and the printing press. And technology experts -- like the guys who brought you the BMW 3-series, the F-35 fighter jet, and Amazon.com -- think it could be "bigger than the internet."

A new investment video reveals the impossible (but real) technology that could make you impossibly rich. Watch it now, before the skeptics on Wall Street wise up and start looking for their piece of the action.

ZACKS COMMENTARY FOR AEE

Zacks Blog: Ameren Profits In Line, Sales Dip May 04, 2012
 Zacks Blog: Exelon Beats EPS, Misses on Revs

Bill Gates' \$160 Billion Nightmare

Some say it keeps him up at night. Some claim it was the real reason for his early retirement. And some estimate it's a bigger threat to Microsoft than Apple, Amazon, and Facebook combined. So, what exactly is it that has the Microsoft co-founder so reportedly rattled—and why could it hand in-the-know investors some major profits over the next decade?

ZACKS COMMENTARY FOR AEP
 Zacks Blog: Pepco Reports Mixed Results
 May 04, 2012

THE END OF THE "MADE-IN-CHINA" ERA

The 21st century industrial revolution has already begun. All because of an incredible invention that's made in America.

Business Insider calls it "the next trillion dollar industry." *The Economist* compares its impact to the steam engine and the printing press. And technology experts -- like the guys who brought you the BMW 3-series, the F-35 fighter jet, and Amazon.com -- think it could be "bigger than the internet."

A new investment video reveals the impossible (but real) technology that could make you impossibly rich. Watch it now, before the skeptics on Wall Street wise up and start looking for their piece of the action.

Bill Gates' \$160 Billion Nightmare

Some say it keeps him up at night. Some claim it was the real reason for his early retirement. And some estimate it's a bigger threat to Microsoft than Apple, Amazon, and Facebook combined. So, what exactly is it that has the Microsoft co-founder so reportedly rattled — and why could it hand in-the-know investors some major profits over the next decade?

ZACKS COMMENTARY FOR DTE

Zacks Blog: DTE Energy Misses, Outlook Positive
 Apr 27, 2012
 Zacks Blog: Zacks.com featured expert Kevin Matras

THE END OF THE "MADE-IN-CHINA" ERA

The 21st century industrial revolution has already begun. All because of an incredible invention that's made in America.
Business Insider calls it "the next trillion dollar industry." *The Economist* compares its impact to the steam engine and the printing press. And technology experts -- like the guys who brought you the BMW 3-series, the F-35 fighter jet, and Amazon.com -- think it could be "bigger than the internet."
 A new investment video reveals the impossible (but real) technology that could make you impossibly rich. Watch it now, before the skeptics on Wall Street wise up and start looking for their piece of the action.

THE DEATH OF CREDIT CARDS

The plastic in your wallet is about to go the way of the typewriter, the VCR, and the 8-track tape player. When it does, a handful of investors could stand to get very rich. You can join them — but you must act now. An eye-opening new presentation reveals the full story on why your credit card is about to be worthless — and highlights one little-known company sitting at the epicenter of an earth-shaking movement that could hand early investors the kind of profits we haven't seen since the dot-com days. ZACKS COMMENTARY FOR IDA

Zacks Equity Research: Report for IDA
 Apr 23, 2012

THE END OF THE "MADE-IN-CHINA" ERA

The 21st century industrial revolution has already begun. All because of an incredible invention that's made in America.

Business Insider calls it "the next trillion dollar industry." *The Economist* compares its impact to the steam engine and the printing press. And technology experts -- like the guys who brought you the BMW 3-series, the F-35 fighter jet, and Amazon.com -- think it could be "bigger than the internet."

A new investment video reveals the impossible (but real) technology that could make you impossibly rich. Watch it now, before the skeptics on Wall Street wise up and start looking for their piece of the action.

COMPANY DESCRIPTION

Idacorp Inc. is an electric public utility company. The company is engaged in the generation, purchase, transmission, distribution and sale of electric energy primarily in the areas including southern Idaho, eastern Oregon and northern Nevada. The company relies heavily on hydroelectric power for its generating needs and is one of the nation's few investor-owned utilities with a predominantly hydro base. The company's principal commercial and industrial customers include lodges, condominiums, and ski lifts and related facilities.

THE DEATH OF CREDIT CARDS

The plastic in your wallet is about to go the way of the typewriter, the VCR, and the 8-track tape player. When it does, a handful of investors could stand to get very rich. You can join them — but you must act now. An eye-opening new presentation reveals the full story on why your credit card is about to be worthless — and highlights one little-known company sitting at the epicenter of an earth-shaking movement that could hand early investors the kind of profits we haven't seen since the dot-com days.  May 03, 2012
 Zacks Blog: SCANA Nuclear Units Approved

Bill Gates' \$160 Billion Nightmare

Some say it keeps him up at night. Some claim it was the real reason for his early retirement. And some estimate it's a bigger threat to Microsoft than Apple, Amazon, and Facebook combined. So, what exactly is it that has the Microsoft co-founder so reportedly rattled — and why could it hand in-the-know investors some major profits over the next decade?

ZACKS COMMENTARY FOR SO

Zacks Blog: Warm Weather Hurts Southern Company
 Apr 25, 2012
 Zacks Blog: Entergy Expects Weak Q1

THE END OF THE "MADE-IN-CHINA" ERA

The 21st century industrial revolution has already begun. All because of an incredible invention that's made in America.

Business Insider calls it "the next billion dollar industry." The Economist compares its impact to the steam engine and the printing press. And technology experts -- like the guys who brought you the BMW 3-series, the F-35 fighter jet, and Amazon.com -- think it could be "bigger than the internet."

A new investment video reveals the impossible (but real) technology that could make you impossibly rich. Watch it now, before the skeptics on Wall Street wise up and start looking for their piece of the action.

Zacks Blog: Zacks Bull and Bear of the Day Highlights: Ealon, Avery Dennison, Duke Energy, Westar Energy and Progress Energy

THE DEATH OF CREDIT CARDS

The plastic in your wallet is about to go the way of the typewriter, the VCR, and the 8-track tape player. When it does, a handful of investors could stand to get very rich. You can join them — but you must act now. An eye-opening new presentation reveals the full story on why your credit card is about to be worthless — and highlights one little-known company sitting at the epicenter of an earth-shaking movement that could hand early investors the kind of profits we haven't seen since the dot-com days.

THE DEATH OF CREDIT CARDS

The plastic in your wallet is about to go the way of the typewriter, the VCR, and the 8-track tape player. When it does, a handful of investors could stand to get very rich. You can join them — but you must act now. An eye-opening new presentation reveals the full story on why your credit card is about to be worthless — and highlights one little-known company sitting at the epicenter of an earth-shaking movement that could hand early investors the kind of profits we haven't seen since the dot-com days. ZACKS COMMENTARY FOR XEL

Zacks Blog: Wisconsin Energy's Mixed Bag
 May 01, 2012
 Zacks Blog: Xcel Beats EPS, Lags Revs

Bill Gates' \$160 Billion Nightmare

Some say it keeps him up at night. Some claim it was the real reason for his early retirement. And some estimate it's a bigger threat to Microsoft than Apple, Amazon, and Facebook combined. So, what exactly is it that has the Microsoft co-founder so reportedly rattled — and why could it hand in-the-know investors some major profits over the next decade?
