Public Service Commissioners,

Hear Me, Hear Me, Hear Me ... !!!

I'm against R.M.P. getting an increase, only if S.S. will give me a raise of same amount.

Really, I appreciate electricity, but I've seen just how R.M.P. junctions - a few years ago they came into our community & put the ugliest, huge poles in my daughters front yard & I'm sure is a detriment to their health - Also came in on peoples property, that were opposed to the whole of it. They lured a great man from our area, with those big bucks & unbelivable, only to to let him go in two years after. They had to much power - They need to be controlled not controlling every citizen with in their territory -

Thanks -
M. Weese
