**AVAILABILITY:** At any point on the Company's interconnected system where there are facilities of adequate capacity at such phase and voltage as Company may have available for service to mobile home and house trailer parks taking service under this Schedule as of its effective date. No new customers or expansion of existing mobile home and house trailer parks will be served under this Schedule.

**APPLICATION:** Alternating current service normally will be supplied to each mobile home or house trailer directly by the Company at approximately 120 or 240 volts. Service to each tenant will be separately metered and billed under the Company's appropriate residential rate schedule in the name of the individual tenant whenever possible and in the name of the mobile home park or house trailer park owner or proprietor where circumstances make it impractical to bill the tenants directly. Alternately the Company will supply alternating electric current service at Company's available voltage through a single point of delivery under the rates set forth in the monthly bill section below.

Should the mobile home or house trailer park owner or proprietor receive single point of delivery service under this rate schedule, the owner or proprietor will submeter each tenant for electric service rendered under the applicable residential rate schedule of the Company. Copies of the Company's residential rate schedules will be furnished to each mobile home or house trailer park owner or proprietor who elects to take a single point of delivery service. The owner or proprietor shall post in several conspicuous places around the mobile home or house trailer park copies of the Company's residential rate schedules with a statement that the charge for electric service for each mobile home or house trailer space will be billed in accordance with the appropriate residential service rate. The owner or proprietor shall not meter or sell electric energy to any tenant under any other rate or system of charges. Evidence of any sale or attempt to sell
