**RE: Docket No. 11-2035-01
PacifiCorp's 2011 Integrated Resource Plan - Addendum**

PacifiCorp (or Company) filed its 2011 Integrated Resource Plan (2011 IRP) with the Public Service Commission of Utah (Commission) on March 31, 2011. At that time, the Company indicated that it would be filing supplemental information to the 2011 IRP at a later date. To that end, please find enclosed the original and five copies of the Addendum to the 2011 IRP.

As cited in Chapter 2, page 21 of the 2011 IRP, this Addendum includes the following additional studies:

- Stochastic analysis of the Energy Gateway transmission scenarios documented in Chapter 4 of the 2011 IRP;
- Stochastic production cost simulation of revised Energy Gateway and minimal Energy Gateway portfolios; the revised portfolios account for transmission operational constraints not captured with the System Optimizer capacity expansion model, as well as an alternate strategy for representing out-year generation resources;
- An energy efficiency (Class 2 demand-side management) avoided cost study; and
- An evaluation of wind capital cost and capacity factors recommendations and associated supporting data provided by Interwest Energy Alliance.

Copies of the 2011 IRP and this Addendum are available electronically on PacifiCorp's website, at www.pacificorp.com.

All formal correspondence and data requests regarding this filing should be addressed as follows:

By e-mail (preferred): datarequest@pacificorp.com
 irp@pacificorp.com
 dave.taylor@pacificorp.com
 yvonne.hogle@pacificorp.com
