Re: Demand-side management 2011 Annual Energy Efficiency and Peak Load
Reduction Report pursuant to Commission order in Docket No. 09-035-27

On October 7, 2009, in the above referenced docket, the Commission approved the recommendation from the Demand-side Management (“DSM”) Advisory Group requiring Rocky Mountain Power (“Company”) to file an annual DSM report. In compliance with this order, the Company provides herewith its annual report on DSM activities for calendar year 2011.

As a provision to service in the Schedule 192 Self-Direction Credit program the administrator is required to file annual reports with the Commission and Company regarding the performance of the Self-Direction Credit program. As appendices to this year’s annual report the Company is also including the 2010 and 2011 Self-Direction Administrator Reports.

The Company also requests the removal of the requirement that the annual DSM report provide cost effectiveness tests with the IRP avoided costs used when the program was approved, starting with the filing of the 2012 Annual Report due in 2013. There already exists a requirement for the report to provide cost effectiveness tests with the current IRP avoided costs.

It is respectfully requested that all formal correspondence and staff requests regarding this matter be addressed to:

By E-mail (preferred): datarequest@pacificorp.com
dave.taylor@pacificorp.com

By regular mail: Data Request Response Center
PacifiCorp
825 NE Multnomah Blvd., Suite 2000
Portland, OR 97232

Informal inquiries may be directed to Dave Taylor, Regulatory Manager, at (801) 220-4501.
