Re: Advice No. 12-04
Docket No. 12-035-77 (08-999-05) –Home Energy Report Pilot, Division’s Changes to the DPU’s May 2, 2012 Action Request Response.

The Division would like to make two changes to its May 2, 2012 Action Request Response. Both changes are in the CONCLUSION of the memorandum. The first change concerns the cost and length of the pilot program. The cost of the program should be \$3.2 million, and the length of the program should be 41 months. The second change concerns the pilot program review process. Two sentences “However, the Division recommends that the program be evaluated continuously on an annual basis. This evaluation will identify if the pilot program should be continued as is, continue with appropriate program design modifications, or if the program should be terminated.” were inadvertently included and should be removed. Attached is an amended copy of the May 2, 2012 memorandum, which includes the changes described above.
