Re: Docket No. 08-999-05
Addendum III (Revised) to Smart Grid Monitoring Report

On October 15, 2012, at the direction of the Commission, Rocky Mountain Power filed Utah Addendum III to its 2012 Smart Grid Annual Report in the above referenced docket. Addendum III included the dynamic line rating (DLR) system on the Miners-Platte 230 kV transmission line located in southeast Wyoming. Rocky Mountain Power hereby submits a revision to Addendum III. Revised Addendum III includes additional information on the Miners-Platte line as well as a brief description of the status of the dynamic line rating system for the Populus-Borah 1, Populus-Borah 2 and Populus-Kinport 345kV lines in southern Idaho. The Company will also provide an electronic version of this filing to psc@utah.gov and a confidential CD.

Utah Addendum III (Revised) to the 2012 Annual Smart Grid Report contains information that is commercially sensitive to Rocky Mountain Power and is confidential. Accordingly, Rocky Mountain Power is filing the confidential documents under seal pursuant to R746-100-16, and requests that the Commission require any party who wishes to view these documents execute a Confidential Information Certificate.

It is respectfully requested that all formal correspondence and staff requests regarding this matter be addressed to:
