Re: Utah FinAnswer Express 2012-2014 Cost-Effectiveness, Low Carbon Scenario

The tables below present the cost-effectiveness findings of the Utah FinAnswer Express program based on projected 2012, 2013, and 2014 costs and savings estimates provided by PacifiCorp in a spreadsheet entitled “Exec Summary 120211”. The Utility discount rate is from the 2011 PacifiCorp Integrated Resource Plan.

Cost-effectiveness was tested using the 2011 IRP 69% east system load factor decrement. Table 1 lists modeling inputs, and Table 2 shows the annual cost and savings information provided by PacifiCorp. Table 3 provides measure lives for each bundle, provided by PacifiCorp, as well as realization rates for each bundle’s savings values, taken from the 2005-2008 program evaluation. Table 4 outlines the administrative costs.

Overall, the FinAnswer Express program is cost-effective, passing four of the five standard cost-benefit tests. Cost-effectiveness results for the entire program and each measure group are provided starting in Table 5. Results are shown for the 2012, 2013, and 2014 program years combined.

Table 1: FinAnswer Express Inputs

Parameter	Value
Discount Rate	7.17%
Commercial line loss	9.379 %
Industrial line Loss	5.726 %
Commercial energy rate (\$/kWh)	
2012	\$0.0745
2013	\$0.0764
2014	\$0.0783
Industrial energy rate (\$/kWh)	
2012	\$0.0499
2013	\$0.0512
2014	\$0.0524

Table 2: FinAnswer Express Annual Costs and Savings by Year and Measure Type

FinAnswer Express	End Use	Gross kWh Savings	Gross Savings	Incentives	Participant Incremental
2012	Appliances	85,690	4	\$13,750	\$32,335
	Compressed Air	750,000	40	\$113,077	\$277,728
	Envelope	87,577	18	\$34,220	\$84,664
