Date: September 28, 2012

Re: Docket No. 12-035-T12, RMP Advice No. 12-13, Proposed Changes to Schedule 111 Home Energy Savings Incentive Program and Cancellation of Schedule 113 Evaporative Cooling and Central Air Conditioning Incentive Program (Cool Cash Incentive Program). The Division recommends the approval of Rocky Mountain Power's proposed changes.

RECOMMENDATION (Approval)

The Division of Public Utilities (Division) recommends that the Public Service Commission (Commission) approve Rocky Mountain Power's (Company) proposed changes to the tariff sheets for Schedule 111, the Home Energy Savings Incentive Program and incorporate Schedule 113 Evaporative Cooling and Central Air Conditioning Incentive Program into Schedule 111.

ISSUE

On September 12, 2012, the Division filed a response to the Commission's Action Request dated August 20, 2012 recommending Commission approval of the Company's proposed changes to Schedule 111 pending the Company filing revised Tariff sheets. On September 25, 2012 the Company provided corrected Tariff sheets. On September 27, 2012, the Commission issued an

Action Request for the Division to review these corrected Tariff sheets and report its findings and recommendation to the Commission by September 30, 2012. This memorandum represents the Division's response to the Commission's Action Request.

DISCUSSION

The Division and the Office of Consumer Services identified DSM measures that were included in the Company's filing but were not included on Schedule 111 Tariff pages. The items missing were:

- The reference to CFL "Daylight" incentive
- LED incentive
- Self-install wall insulation incentive

The Division recommended that the Company file a corrected Schedule 111 prior to the Commission approving this filing.

CONCLUSION

The Division has verified that the above mentioned items have been included in the Company's corrected Schedule 111 Tariff as filed on September 25, 2012. The Division recommends approving the filing with the corrected Schedule 111 Tariff pages.
