To: "psc@utah.gov" <psc@utah.gov>

To whom it may concern:

I am writing to voice my concern over RMP's proposed fees that penalize individuals who provide power to our system through their own solar installations. These types of efforts should be rewarded and encouraged in order to ween ourselves from fossil fuel dependence.

Furthermore, I encourage additional effort to separate PacifiCorp's monopoly-like interest in coal mining and coal power generation in order to better invent this organization to act in the public interest to work towards long-lasting renewable energy production.

Sincerely,

Cameron Christensen
