To: psc@utah.gov

I am writing to urge that the Public Service Commission refuse to permit RMP from charging those who are interested in installing solar panels on their homes a fee of \$4.25 a month.

If RMP is interested in promoting alternative energy use they should encourage rather than discourage solar conversions.

Those of us interested in making a commitment to a healthier environment should not be penalized even if others do not share our views.

Thanks,

Louis Borgenicht, MD
