Subject: Support solar, No solar tax from RMP.
To: drexclark@utah.gov

Dear Commissioner Clark,

Utah has amazing solar resources and should be a national leader in rooftop solar, but ranks only 31st in the nation for solar homes.

Now, Rocky Mountain Power is trying to impose a solar tax that will prohibit Utah from ever being a national solar leader.

Don't penalize customers who want to generate clean solar energy. Support solar and Utah's clean energy future. This will only force solar panel users (like myself) to start using batteries which are costly and don't feed back into Utah's power system.

Sincerely,

S. Max Kloeppe
