Re: Solar penalty

We have become aware of reports that Rocky Mountain Power and Utah Public Utilities Commission are considering a fee or penalty for those of us who have or are planning to install solar energy. Is this true? If so, are you seriously considering penalizing those of us who are doing the right thing by reducing our dependence on non-renewable energy sources? How do you plan to justify this to the citizens you serve and our children and grandchildren?

Bob Orton

M. Honor-Orton
