Subject: Make Utah a solar leader
To: tleva@utah.gov

Dear Commissioner LeVar,

Thank you for your time and attention to this matter. My question is why are we going to tax something that will eventually help our Earth. The government should be helping people to go solar not fining them. Utah ranks 7th in the United States for solar resource but only 31st for solar homes. Utah should be a solar leader but we have fallen behind.

If Rocky Mountain Power succeeds in implementing a monthly tax on solar customers, that future will never be realized. How about Rocky Mountain Power minding their own business and if they are that worried go into the business of solar power.

Don't penalize customers for making the choice to generate their own clean energy. I urge you to support Utah's clean energy future and oppose this unfair tax.

Sincerely,

Lesa McCullough
