Subject: Make Utah a solar leader

Dear Commissioner LeVar,

Utah ranks 7th in the United States for solar resource but only 31st for solar homes. Utah should be a solar leader but we have fallen behind.

How can you allow this? I hope lobbyists aren't paying you for your vote. Please retain your humanity and vote this attempted move by RMP down. When this kind of thing happens it marks the decline of our society. Political corruption is at the core of it. Please make a difference. Your soul is at stake as is the progress of mankind.

If Rocky Mountain Power succeeds in implementing a monthly tax on solar customers, that future will never be realized.

Don't penalize customers for making the choice to generate their own clean energy. I urge you to support Utah's clean energy future and oppose this unfair tax.

Sincerely,

Roger Harris
