Subject: Solar should not be able to be taxed by a monopoly

To: tleva@utah.gov

Dear Commissioner LeVar,

Dear Sir,

You have been placed in a seat of trust to protect the people of Utah please do show the courage to do what is right by people wanting to be self sufficient and "green" .

Rocky Mountain Power is trying to charge solar customers a tax. This is a penalty for customers who have made a choice to produce their own power.

Sincerely,
Andrew Phillips

If this solar tax is implemented, Utah will not have a chance to be a solar leader. Utah ranks 7th in the United States for solar resource but only 31st for solar homes.

Please keep solar fair in Utah.

Sincerely,

Andrew Phillips
