Subject: Make Utah a solar leader  
To: rallen@utah.gov

Dear Chairman Allen,

The state and Rocky Mountain Power provide several subsidies to homeowners for installing items that use less electricity. Solar even receives rebates. Rocky Mountain Power shouldn't be taxing something that normally gets rebates to promote the usage of it.

Utah ranks 7th in the United States for solar resource but only 31st for solar homes. Utah should be a solar leader but we have fallen behind.

If Rocky Mountain Power succeeds in implementing a monthly tax on solar customers, that future will never be realized.

Don't penalize customers for making the choice to generate their own clean energy. I urge you to support Utah's clean energy future and oppose this unfair tax.

Sincerely,

Robert Jones
