Subject: Keep solar fair in Utah
To: rallen@utah.gov

Dear Chairman Allen,

Rocky Mountain Power is trying to charge solar customers a tax. This is a penalty for customers who have made a choice to produce their own power.

If this solar tax is implemented, Utah will not have a chance to be a solar leader. Utah ranks 7th in the United States for solar resource but only 31st for solar homes.

As a resident of Sandy, UT and someone who is seriously considering rooftop solar for our home I am disgusted that RMP are considering such a short sighted tax. I am even more alarmed that they seem to have an audience willing to listen to their request.

Please keep solar fair in Utah.

Sincerely,

Richard Burford
