Dear Commissioner LeVar,

Rocky Mountain Power is trying to charge solar customers a tax. This is a penalty for customers who have made a choice to produce their own power. We have plenty of coal and gas in Utah. Give solar a chance economically to get a solid foothold in Utah. The benefits to the environment are, as the saying goes, priceless.

If this solar tax is implemented, Utah will not have a chance to be a solar leader. Utah ranks 7th in the United States for solar resource but only 31st for solar homes.

Please keep solar fair in Utah.

Sincerely,

Faith Hofer
