Dear Chairman Allen,

Idaho is leading the way! Utah let's get on board and help to build a better tomorrow for generations to come! The link below is about Solar Roadways out of Idaho attending the first ever Maker Faire hosted by the White House. What are we doing here in Utah? Let us not appease Rocky Mountain Power but put our focus and energy into a brighter tomorrow for all!

Utah has amazing solar resources and should be a national leader in rooftop solar, but ranks only 31st in the nation for solar homes.

Now, Rocky Mountain Power is trying to impose a solar tax that will prohibit Utah from ever being a national solar leader.

Don't penalize customers who want to generate clean solar energy. Support solar and Utah's clean energy future.

Sincerely,

Renee Luras
