Subject: Keep solar fair in Utah
To: tleva@utah.gov

Dear Commissioner LeVar,

Rocky Mountain Power is trying to charge solar customers a tax. This is a penalty for customers who have made a choice to produce their own power.

If this solar tax is implemented, Utah will not have a chance to be a solar leader. Utah ranks 7th in the United States for solar resource but only 31st for solar homes.

Please keep solar fair in Utah. I do not agree with taxing those who want to use different energy resources. Rocky Mountain Power shouldn't be allowed to monopolize the energy sources in the state, or be allowed to penalize certain citizens in the state of Utah.

Sincerely,

Vachel Carter
