Subject: Keep solar fair in Utah  
To: rallen@utah.gov

Dear Chairman Allen,

Rocky Mountain Power is trying to charge solar customers a tax. This is a penalty for customers who have made a choice to produce their own power.

If this solar tax is implemented, Utah will not have a chance to be a solar leader. Utah ranks 7th in the United States for solar resource but only 31st for solar homes.

Please keep solar fair in Utah.

I myself do not have solar panels as I can not afford them and live in a n apartment complex. But I don't feel that it's fair to try to tax those who can afford them!  
The government is already trying to tax the people to death, and now a company is also out of nothing but greed. Also monopoly!

Sincerely,

Lori Woten
