Subject: Make Utah a solar leader
To: tleva@utah.gov

Dear Commissioner LeVar,

Rocky Mountain Power is trying to charge solar customers a tax. This is a penalty for customers who have made a choice to produce their own power.

If this solar tax is implemented, Utah will not have a chance to be a solar leader. Utah ranks 7th in the United States for solar resource but only 31st for solar homes.

This is a completely unfair tax that makes no sense at all. What right at all does the state or RMP have to my Money for something I am choosing to do in order to save money?? This is tantamount to saying that electricity is something you must purchase as a citizen regardless if whether you need it or not. I would definitely NOT vote to keep someone in office who supports this.

Please keep solar fair in Utah.

Sincerely,

Juline Lambert
