Dear Commissioner LeVar,

Rocky Mountain Power is trying to charge solar customers a tax. This is a penalty for customers who have made a choice to produce their own power.

If this solar tax is implemented, Utah will not have a chance to be a solar leader. Utah ranks 7th in the United States for solar resource but only 31st for solar homes.

It will show the country that we tax the people to death and we don't tax oil and coal exports!
Please don't make Utah look like idiots

Please keep solar fair in Utah.

Sincerely,

Joseph Shaw
