Dear Commissioner Clark,

Rocky Mountain Power is trying to charge solar customers a tax. This is a penalty for customers who have made a choice to produce their own power.

If this solar tax is implemented, Utah will not have a chance to be a solar leader. Utah ranks 7th in the United States for solar resource but only 31st for solar homes.

With our aging power grid, and power economic situation, you can't squeeze enough money from citizens to pay for the overhaul it needs. Let citizens who can, relieve some of the stress on the current grid by using solar power. Keep solar power free.

Please keep solar fair in Utah.

Sincerely,

Colleen Pike

Sincerely,

Colleen Pike
