Dear Mr. Allen,

I am writing to bring to your attention the problem with the Rocky Mountain request for an additional surcharge on residential solar net metering.

I need your voice to stop this shameless attempt to punish those who have opted for an efficient, clean and responsible way of generating electrical power: solar system owners like us.

We have stepped forward to do the right thing for the environment, and our community, Rocky Mountain Power and its attempt to increase their profit by targeting us is not only outrageous but unethical, because we generate clean power that goes back to the grid, it should be us getting a monthly check from Rocky Mountain Power, not all the way around, we are easing their efforts to provide our community with energy, with clean energy.

Therefore, I beg of you to stand up for us, people with no contacts, no lobbyist, no voice. Please, do the right thing: stop Rocky Mountain Power.

Sincerely

Alejandra and David Crow
Salt Lake City, UT 84105
