Hi Stan,
The Sierra Club is welcome to submit the petition signatory names it has as an exhibit for the docket.

Becky

Hi, Becky.

The Sierra Club counts 1500 individuals who have signed its anti-RMP solar fee petition, but only 200 who have been recorded in the docket. Is it possible that so many petition emails didn't make it through to the PSC?

Should the Sierra Club submit all the petition signatory names and email addresses it has as an exhibit for the docket (#13-035-184)?

Thanks for your help with this.

Stan
