I write to express my strong support for Utah power consumers, and my support to Rocky Mountain Power's proposed fee increase of \$4.25 per month targeting these customers.

Each individual rooftop solar installation is relatively small, but together their contribution is growing -- projected to comprise 20 MW by the end of 2014.

I stand with utility customers in Utah and ask that the \$4.25 solar charge be approved. Their personal investment in clean energy creates clear benefits to themselves and I do not feel they need to be subsidized. They should not be subsidized; rather, they should pay their fair share.

Sincerely,

Richard Lock
