Subject: Keep solar fair in Utah
To: rallen@utah.gov

Dear Chairman Allen,

We strongly oppose RMP's attempt to penalize home owners who have taken the initiative to help prevent more air pollution in Utah by buying solar panels for their homes. By doing so they have spent their own money in the service of responsibility for the community in which they live and for the world's environment.

If anything, solar home owners should be given a tax break of an opportunity to sell excess energy back to RMP.

RMP's taxation attempt is regressive, not progressive.

Rocky Mountain Power is trying to charge solar customers a tax. This is a penalty for customers who have made a choice to produce their own power.

If this solar tax is implemented, Utah will not have a chance to be a solar leader. Utah ranks 7th in the United States for solar resource but only 31st for solar homes.

Please keep solar fair in Utah.

Thank you,
David and Suzanne Wille

Sincerely,

Suzanne M Wille
