To: "psc@utah.gov" <psc@utah.gov>

I just recently had solar panels put on my home. I did this for several reasons, but one was to improve our poor air quality. Now I find out that Rocky Mountain Power wants to penalize me for trying to help by imposing a Net Metering Facilities Charge. To add a fee for rooftop solar now will harm Utah's growing solar market and prevent investment in an extraordinary energy resource.

I strongly oppose the new fee and hope that you will not allow this to pass.

Sincerely,

Beth Kapp
