Subject: Electric Price Increase

To: "[sliebert@utah.gov](mailto:sliebert@utah.gov)" <[sliebert@utah.gov](mailto:sliebert@utah.gov)>

Utah State Utilities Commission:

I wish to complain about the new 'Energy Charge Summer Block 1'. The 400 kwh threshold is set to low for the 'Energy Charge Summer Block 1'. The 'Energy Charge Summer Block 1' should at least be set to a minimum 600 to 700 kwh.

The Utilities Commission and Rocky Mountain should have one a better job in letting the public know that the way they were going to changes the way our bills are calculated.

Please let the Utah State Utilities Commission the way I feel about the way the changes were instituted with out let the public know what was what was happening the their electrical bills .
